CONCRETE EQUIPMENT

Everdigm Concrete Pumps

Boom, Trailer, Truck Mounted Pumps
& Placing Boom Systems

SDEC provides an extensive lineup of **Everdigm's Boom, Line & Trailer Concrete Pumps**. Based on FFH oil pressure system with its superior performance, these machines offer a paradigm shift in the concrete pumping

industry. These highly engineered products are the notion of productivity, durability and performance. **Everdigm's Boom, Line & Trailer Concrete Pumps** are a guaranteed partner for success.

Trailer Pumps & Truck-Mounted Line Pumps (up to 300 m Vertical Reach)

Features and Benefits

- ▶ Reliable quality by application Rexroth
- ▶ Hydraulic pump unit Brand and Stibel Gear Box
- ▶ Theoretical vertical concrete transfer up to 300 m, horizontal up to 630 m
- ▶ Theoretical concrete pressure up to 277 bar
- ▶ Hard metal of tungsten carbide wear plate & ring
- ▶ Wide space of Platform load-able pipe

Boom Pumps (21m - 63m Vertical Reach)

Features & Benefits

- ▶ Maximize working efficiency with FFH System application.
- ▶ Easy to control the boom speed by proportional system.
- ▶ Manganic chrome of reducing pipe, wear-resistant material of delivery pipe.
- ▶ Auto-lubricating device minimizing parts abrasion of repetitive working part.
- ▶ Stable and safe working by monitoring the boom movement.
- ▶ Adjusting concrete pressure and delivery volume by each different pump cell option.

Placing Boom Systems (up to 42 m Working radius)

Features and Benefits

- ▶ Tubular mast type and Tower mast type
- ▶ Working radius up to 42 m or longer boom based on Project need
- ▶ Maximum 37kw output

CONCRETE EQUIPMENT

Everdigm Truck Mixers & Batching Plants

Truck Mixers

SDEC has extended its business portfolio to include **Truck Mixers** from **EVERDIGM** in addition to the pre-existing Concrete Pump line, providing customers with a fully integrated, comprehensive, and reliable **Ready-mix** concrete application solutions.

Features & Benefits

- ▶ Reliable quality by application Rexroth hydraulic pump and ZF gear
- ▶ Drum capacity from 8 m³ up to 12 m³
- ▶ Drum geometrical volume up to 19.5 m³
- ▶ Drum rotating speed 0 – 14 rpm
- ▶ 1000 Liter Water Tank

“Total solution in Ready-mix concrete application.”

Batching Plants

SDEC has been a premier at providing complete concrete solutions, and as part of our constant endeavors to provide you with the best service available, we have brought to you the highest quality of batching plants the market has to offer.

Having been designed for maximum efficiency and reliability for producing all types of high quality concrete with production outputs starting from **30 m³ - 180 m³ per hour**, our batching plants are exactly what you need for your business to succeed.

“Available within a variety of options and can be configured to meet each client’s individual needs and capacities.”
